## EDUCATION

---

Code Crew Coding School Jan 2019-Present

- Currently studying to become a full-stack developer

University of Memphis, Memphis, TN Fall 2016

- Earned Bachelor of Science in Mathematics

## TECHNICAL SKILLS

---

- Languages and Frameworks

JavaScript Java Python React Django Bootstrap MongoDB SQL

## PROJECTS

---

Mock Twitter - *JavaScript*

- Individual web application that allows a user to add, edit, and view post.
- Employs MongoDB as a database to store each user's credentials and posts.
- Implements Express to handle backend routes and request from the client and Bootstrap and React to design the front-end

Mock Wikipedia - *Python*

- Individual web application that allows a user to add, edit, delete and view articles and related content.
- Utilizes SQL as a database to store each user's credentials, articles, and related content.
- Implements the Django framework to handle backend routes and Bootstrap and Django's templating language to design the front-end.

## WORK EXPERIENCE

---

Teaching Assistant for Kumon June 2016-Present

- Motivate students to become self-learners and instill a greater sense of confidence in themselves
- Drill memorization techniques to enable students to improve their fundamentals in both math and reading
- Moderate the classroom of 30+ students to maintain a quiet, productive working environment
